

#02-278 will be the downfall of many businesses. My business generates leads from faxes, fortunately almost 95% of my faxes returns a positive business relationship and revenue. If anyone complains to me I immediately take them off any fax listing. This goes way beyond a few people getting upset with wasting a few peices a paper receiveing an unsolicited fax. Much revenue is generated and clisnts businesses also produce more revenue with companies such as mine. Don;t let a minority of upset people create a situation in which major sources of revenue is lost for a large industry.
